

# Empowering Businesses Through Technology.

**ROBB**  
CONSULTING GROUP  
**robbscg.com**  
consulting + creativity

- **Front-End Technologies:** JavaScript, HTML, React, Angular, Material UI, Bootstrap, and CSS.
- **Back-End Technologies:** Java, Spring and Spring Boot, NodeJS, PHP, C#, C++, and .Net.
- **Cloud:** Microsoft Azure, Amazon Web Services, and Google Cloud.
- **Databases:** SQL, Azure SQL, MySQL, MongoDB, Oracle Database, and Microsoft SQL Server.
- **Cyber Security:** Kali Linux, Microsoft Defender For Cloud, Wireshark, Nexpose, and Burp Suite.

The list above is a partial list of the tools we have utilized. Let's have a conversation to find out more about your needs.

## About Us

We are primarily a software and data engineering company with over 45 years of combined experience. At our core, we view ourselves as problem solvers and our primary tool of choice is software. We're also firm believers in the agile methodology because client collaboration is crucial to how we operate. And lastly, we take great pride in client satisfaction because no amount of marketing beats a recommendation from a client.

## Past Performance

### Full-Stack Developers

Created multiple full-stack applications using Java, Spring Boot, React, SQL, AWS, and Microsoft Azure. These applications have reduced our clients' (commercial and government) operating costs by a minimum of twenty percent (20%).

### Cloud Engineers

Modernized over twenty-five (25) clients' databases by building out their cloud platform and transferring all of their data from a locally hosted SQL server to Microsoft Azure. This reduced their server costs by thirty percent (30%) and their operating costs by fifteen-percent (15%).

### Efficiency Experts

Optimized the speed, efficiency, and functionality of clients' e-commerce platforms by rebuilding the UI from ASPX to React and React Native. This led to sales increases by at least twenty-five percent (25%) due to faster page loads.

### Data Engineers

We currently manage over two hundred (200) clients' databases. Databases (MySQL, PostgreSQL, Redis, Elasticsearch, Microsoft Azure, Oracle, MongoDB, and Firebird SQL) created on our servers which we also manage.

## Differentiators

- The COO has a data science background plus over fifteen (15) years of experience as a data scientist plus a master's degree in data analytics from Rensselaer Polytechnic Institute and a Ph.D. in law.
- The CEO has over ten (10) years of experience in IT and management consulting and an MBA in corporate innovation and entrepreneurship from Pennsylvania State University plus a PMP® Certification.
- Both the CEO and COO have project management experience managing/leading teams as large as over two hundred (200) people.

## Company Information

- **UEI:** VAHKRKQGGY88
- **DUNS:** 11-9310-4225
- **NAICS:** 541511 (primary), 541613, 541611, 512110
- **CAGE:** 9PMJ3
- **EIN:** 93-3054762
- **Accept Credit/Purchase Cards:** Yes.
- **Minority-Owned Small Business.**
